At the discretion of the department superintendent, another exhibitor may be designated to assist in showing the animal in the other classes.
4. Junior exhibitors may compete in the Open division in livestock classes. Medicine administered to an animal at the fair needs to be administered by a fair board professionally hired fair veterinarian. The following individuals should be present when any animals are being sent home: Fair Veterinarian, exhibitor, parent, and a fair board exhibitor committee member. SHOW RULES

(Dairy, Beef, Sheep, Swine, Goats, Horses, Poultry and Rabbits)

All animals are subject to examination prior to, during and after judging by livestock superintendents, judges, fair board members or a professionally hired fair veterinarian. If the Waupaca County Fair Board suspects a violation of the Show Ring Code of Ethics and/or published rule in the current fair book has or will happen and the violation is reasonably well established before the animal is shown, the Waupaca County Fair Board will discuss the potential violation and possible actions with the exhibitor. If, at the exhibitor's discretion, the animal in question is not shown, no violation will have occurred. If the exhibitor wishes to challenge the decision that a violation will or has occurred, the exhibitor will have the opportunity to discuss this with the Waupaca County Fair Board in a review discussion. If the decision is made that a violation will or has occurred the exhibitor will be denied the opportunity to exhibit the animal in question.

If the Waupaca County Fair Board suspects a violation of the Show Ring Code of Ethics and/or published rule in the current fair book has occurred on an animal that has already been shown, the Waupaca County Fair Board will notify the exhibitor of the violation and arrange for a in person meeting in the fair office. All cattle from **Texas** and **Michigan's TB Free Zone** (for cattle from Michigan's Modified Accredited Zone see below), regardless of sex or age are required to have a negative TB test within 60 days prior to import. For details and requirements by state, see:

https://datcp.wi.gov/Pages/Programs_Services/CattleBison.aspx

Cattle and bison from Michigan's Modified Accredited Zone – Alcona, Alpena, Montmorency, and Oscoda counties - (for cattle and bison from Michigan's TB Free Zone, see requirements by state above) also need:

Requirements are subject to change as conditions warrant. For current information, check https://datcp.wi.gov/Pages/Programs_Services/CattleBison.aspx.

Swine

Note: These regulations apply to all swine, including pet pigs and racing pigs.

Note: Herd of origin means the herd in which the pigs currently reside, likely the exhibitor's herd. When pigs are purchased from a herd, the herd from which they originate is the herd of origin for the seller. Once the purchased pigs are added into the buyer's herd (even if the buyer's herd only consists of one or just a few animals), the buyer's herd becomes the new herd of origin and that herd must meet testing requirements to move pigs again.

Swine FROM WITHIN WISCONSIN (Ref. s. ATPC 10.32(2) and 10.87, Wis. Admin. Code) need a Wisconsin intrastate certificate of veterinary inspection (CVI or health certificate)^a:

- Stating that the entire herd of origin on the farm was inspected within 30 days before the show and no apparent disease was present at the time of inspection^d.
- **Non-terminal Exhibitions:** All swine must have a PRRS (Porcine Reproductive and Respiratory Syndrome) and PEDv (Porcine Epidemic Diarrhea virus) test of the herd of origin within 90 days of the end of the exhibition^c. Include test date, type, and results on the CVI.
- **Terminal Exhibitions:** No testing requirements.^c

Note: Terminal Exhibitions are those at which all the swine go directly from the fair/show to the slaughtering establishment OR to a slaughter only market sale. Shows or exhibitions are either terminal or non-terminal. If all of the pigs at the event are not going directly to slaughter (including through a slaughter only market sale), it is considered a non-terminal exhibition. For non-terminal exhibitions, all the pigs at the show or exhibition will need to be tested prior to the event even if individual animals will go directly to slaughter. If going to a slaughter only market sale, contact the Division of Animal Health fair inspector for required information to collect.

Note: If the fair intends to use a load-out facility, contact the Division of Animal Health in advance to discuss requirements that must be met.

Swine FROM OUTSIDE WISCONSIN (Ref. s. ATPC 10.30 and 10.87, Wis. Admin. Code) need a certificate of veterinary inspection (CVI or health certificate)^a that includes the following:

- The negative results of the PRRS test^c from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin including test date, type, and results.
- The negative results of the PEDv test^c from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin including test date, type, and results.
- A statement that the veterinarian has inspected the entire herd of origin within the past 30 days and that no clinical signs of PRRS and PEDv or any other apparent disease was present at the time of inspection.^d
- Official individual identification (ID)^b Acceptable methods of ID for swine are^b:
 - USDA silver ear tag
 - USDA 840 ear tag, either visual or RFID
 - Breed association tattoo if the pig is a purebred and the tattoo is registered
 - An ear tag with the premises identification number and a unique identifier
 - Ear notch if the pig is a purebred and the notch is registered

Note: Microchips are not accepted as official ID for any swine including pet pigs.

Requirements are subject to change as conditions warrant. For current information and for PRRS and PEDv testing options, check https://datcp.wi.gov/Pages/Programs_Services/SwineMovement.aspx.

- Certificate of veterinary inspection (CVI or health certificate)^a and official individual ID^b for all animals.
- See below for Official ID options.
- See below for additional requirements for goats from Michigan's Tuberculosis Modified Accredited Zone.
- Sheep and goats that go to a slaughter establishment after the fair should have an owner hauler statement to move from the fair to the slaughter establishment.

Official ID in the form of a tattoo or Electronic Implantable Identification (EID) is no longer sufficient when moving through a market or going to slaughter.
- **NOTE:** If a Wisconsin origin animal is neutered, less than 12 months of age, and moving through a market after the fair, the market may require Official ID in the form of an ear tag.
- *For more information on official identification and for owner hauler statements see DATCP Website at https://datcp.wi.gov/Pages/Programs_Services/OfficialID.aspx

Goats from Michigan's Tuberculosis (TB) Modified Accredited Zone –Alcona, Alpena, Montmorency, Oscoda counties- also need:

NATIONAL SHOW RING CODE OF ETHICS

The Waupaca County Fair requires that all animal exhibitors comply with the International Association of Fairs and Expositions (IAFE) National Show Ring Code of Ethics. All animal exhibitors, including a parent or guardian of Junior Fair exhibitors, sign the IAFE Exhibitor Entry Statement (included with the entry materials) indicating they have read and understand, consent to, and agree to abide by the following:

IAFE (International Association Of Fairs And Expositions) National Code Of Show Ring Ethics

Exhibitors of animals at the Waupaca County Fair shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agriculture education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all animals offered in any event at the fair.

All leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine examples. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition. Exhibitors who violate this code of ethics demean the integrity of all animal exhibitors and should be prohibited from competition at all shows in the United States and Canada.

The following is a list of guidelines for all animal exhibitors in competitive events:

1. All exhibitors must present, upon request of fair officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any other facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair officials.
3. Exhibitors are expected to care for and groom their animals while at the fair.
4. Animals shall be presented to show events where they will enter the food chain free of drugs. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Animals shall not be exhibited if the drug administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.
5. If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from the animal indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the approved laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise at any hearing in regard to the matter conducted by the fair. At any time after an animal arrives at the fair, all treatments involving the use of drugs and/or medications shall be administered by a licensed veterinarian.
6. Any surgical procedure or injection of any foreign substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
7. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, icing, or other similar practices are not acceptable and are prohibited.
8. Direct criticism or interference with the judge, fair or show management, other exhibitors, breed representatives, or show officials before, during or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
9. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action to be determined by the fair board.
10. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
11. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have any disciplinary action taken by the fair against such individuals published in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
12. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of any penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infraction.
